

Welcome!

Thank you for choosing InnerBalance Health Center for your recovery needs. All of us at InnerBalance are looking forward to meeting you.

Please read all documents of the Welcome Packet thoroughly as there are important items for you to know that will ensure a smooth transition into our program.

Upon arrival

If you have made your flight reservations on your own, please email that information to rochelle@innerbalancehealthcenter.com so we can make a reservation for you with a car service to bring you to InnerBalance Health Center.

When you arrive at DIA, you will need to go to the 1st island. Tell them you are being picked up by Anthony's Limousine.

The address to our office is:
InnerBalance Health Center
1414 West 28th Street
Loveland, Colorado 80538
800-900-2252

InnerBalance Health Center, LLC is not a medically managed detox center and although we would like you to be free from alcohol and mind altering, addictive substances upon enrollment, it is not our recommendation you stop alcohol or other drugs without medical assistance. Please talk with your physician about stopping alcohol and these drugs. If you need assistance with this, please contact us and we would be happy to help you. All clients are tested upon admission and if positive for life-threatening substances that could cause severe withdrawal, may be taken to detox and could lead to a delay in entering treatment. This excludes necessary prescriptions cleared by the Clinical Director.

If you have any questions or need anything else before you arrive, please do not hesitate to call us at the InnerBalance Health Center office 800-900-2252. Thank you and again, we are looking forward to meeting you.

Best regards,
InnerBalance Health Center

Family Members

If you are a family member with concerns for what happens after treatment, please call Rochelle Young at 800-900-2252 and set up a conference call with your loved one and Joe Eisele, our Clinical Director to discuss facilitating a smooth transition back into family life. The call would be scheduled towards the end of the 4 weeks of treatment if necessary.

While the majority of clients who successfully complete our program have a high success rate, there is a percentage of clients who were not ready for treatment and therefore have a higher chance of relapsing. Because we do not know the client very well upon admission, it is very difficult to assess the client's readiness for treatment and therefore we rely on the clients and families judgment in this matter.

If you have concerns, requests or questions relating to your loved one in treatment, please put these in writing and send to Rochelle either by e-mail rochelle@InnerBalanceHealthCenter.com or fax 970-203-0222. She will direct your questions to the appropriate person and you will receive a response within two business days providing we have a release from the client to correspond with you.
